

Shingle Recycling GUIDELINES

CLEAN & ACCEPTED

Clean asphalt shingles CAN INCLUDE:

NAILS

FELT PAPER

TAR PAPER

DO-IT-YOURSELF

You can sort shingles after unloading them. Containers are provided to separate scrap metal and trash from the shingles.

NOT ACCEPTED

- » Wood, pallets
- » Woodshake shingles
- » Metal: *flashing, gutters, plumbing stacks*
- » Plastic or vinyl: *vents, gutters, buckets, plastic packaging*
- » Paper waste
- » Mastic or plastic roofing cement
- » Rolled roofing materials (excess felt)
- » Other garbage, trash or dirt
- » Nail coils

At the Transfer Station

Pull onto the scale to weigh in and use the intercom to notify the scale attendant that you have shingles for recycling. The attendant will instruct you to dump the shingles and other waste at specific locations in the shingle recycling area. Drive back across the scale to weigh out, deliver the Asphalt Shingles Delivery Certification Form to the office upon payment. **One certification form is required for each load of shingles to be recycled.**
